Cancer and Cardiovascular Service Line Executives *(click title to see agenda)*

8 a.m.-Noon | Castillon

Audience: Senior clinical and administrative executives with cancer, cancer center or hospital oversight, or cardiovascular program or heart hospital oversight

Overview: Collaborate with service line leaders on methods to improve access, enhance throughput, and strategically grow in a competitive and shifting market. This interactive meeting features subject matter experts, provider case studies and roundtable discussions in a collaborative, problem-solving environment.

Clinical Documentation Improvement Leaders *(click title to see agenda)*

8 a.m.-Noon | Hermitage

Audience: Medical and quality leaders; chief medical and financial officers; clinical documentation improvement leaders; healthcare professionals focused on quality data, accurate reimbursement and expected mortality

Overview: Effective clinical documentation improvement (CDI) programs are at the forefront of hospital data. This session will examine how CDI teams can go beyond traditional CDI reviews while continuing to maximize reimbursement and improve data quality.
