Maximize your services and manage spend with our expansive portfolio and data driven insights

Indirect spend and purchased services account for a significant portion of unmanaged expense for hospitals and health systems. Managing that amount of spend, plus identifying new savings opportunities, and maximizing value on top of existing savings is a challenge many healthcare organizations face today in a very difficult industry environment.

Vizient recognizes this challenge and has established impactful solutions to address this area of spend. Our team has extensive personal expertise, robust data and technology, and a service-focused mindset to maximize savings, operational efficiencies, category management, and executable strategies with sustainable results for our healthcare organizations. We connect your organization with the right resources to improve spend management.

Working with Vizient means driving value and advancing your success, together.

Consulting

Our team of more than 150+ subject matter experts bring vast and seasoned work experience, combining insightful expertise and a collaborative approach with unparalleled on-site implementation support to sustain the change and create speed to value. We partner with providers to maximize delivery.

Analytics and agreements

Vizient's purchased services analytics allows us to view categorized spend, identify opportunities for standardization and see comparative performance data. We act by linking these opportunities to Vizient's 350+ categories and 500+ contracts.

Engaging with Vizient for support with indirect spend and purchased services ensures your organization's success in a challenging healthcare environment.

As the nation's largest member-driven health care performance improvement company, Vizient provides solutions and services that empower health care providers to deliver high-value care by aligning cost, quality and market performance. With analytics, advisory services and a robust sourcing portfolio, we help members improve patient outcomes and lower costs.
