

Vizient Learning Academy

Spend Management Operations Learning Series

Transform outdated supply chains into value-driven systems that optimize spending and enhance patient care.

Backed by Vizient's unmatched supply chain expertise, this series equips your team to excel in today's complex healthcare landscape.

2026 topic-focused modules

- Purchasing fundamentals
- Strategic sourcing principles
- Contracting and negotiations
- Distribution
- Inventory management

Learning details:

- **On-demand** modules provide an opportunity for self-paced, flexible learning, 24/7.

Transform your supply chain performance

Many organizations are performing supply chain operations as they did 10 years ago, unknowingly inhibiting their ability to execute on all the opportunities available. Supply chain management is undergoing an evolution. A spend management perspective invites us to make the most of each dollar spent.

This learning series is an introduction for supply chain professionals and their teams to effectively drive forward progress and positively impact patient care and hospital performance. Gain a better understanding of the essential front-line roles within supply chain through expert faculty guidance and interactive discussions.

Target audience

Empower your supply chain team with the essential tools and knowledge to drive operational improvements that matter—whether they're new to the role, transitioning or seeking to grow in both acute and non-acute settings. This series is essential for emerging leaders.

Eligibility and fees

- This learning series is open to those organizations that have Vizient primary as their GPO partner.
- Affordable and flexible pricing options start at \$322 per on-demand module series, with discounts for small hospitals and critical access facilities.

Powered by the **Vizient Learning Academy** training and development program to advance individual and organizational performance.
