

## PRODUCT DISRUPTION BRIEF

# Stretchers (reviewed May 29)

**Stryker is experiencing longer lead times; plan orders accordingly.**

### Current conditions

Stryker is continuing to experience longer lead times on the following products, but lead times are improving. The lead times are impacted by supply constraints such as the increased demand for components (e.g., electronics, metals, packaging/labels, distributed products, plastics, and other soft goods). The most significant components are electronics, plastics, and metals (e.g., steel). Electronic components such as microchips, PCBA boards, displays, cables, batteries, keypads, and power supplies have significantly impacted the Stryker's production capability. Stryker has states that their teams are working around the clock on resolving these issues and will work with the Vizient teams to provide updates on a weekly basis. Stretchers are manufactured upon order placement.

Current lead times are (weeks):

Stretchers		Frames		Support surfaces	
Product	Weeks	Product	Weeks	Product	Weeks
Cubs	8	ProCuity	12	Comfort gel	8
5050/5051 stretcher train	12	Secure connect	13	IsoFlex LAL (non-stocked model) 2680	8
