

Emergency Preparedness

Be prepared at all times with an effective strategic emergency management program.

Our experts are here to help

Our multidisciplinary team of accreditation advisors have combined experience in emergency management, law enforcement, worksite security, risk management, employee health, and clinical and patient safety. Our experts are available to work with you to ensure training, processes and support is in place for an effective emergency management program that aligns strategically within your organization.

How prepared are you for an emergency?

Emergency preparedness consists of a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action to ensure effective coordination when responding to a critical incident. Having a comprehensive emergency management program in place will ensure organizational readiness at all times for any event.

Assure those impacted by an emergent event have the necessary equipment, know where to go, and how to keep themselves and your patients safe. Vizient's multidisciplinary team can strategize with you on how to prepare and train for emergencies and secondary hazards that may occur.

Emergency Preparedness Assessment

Vizient Accreditation Advisory Services can help you strategize your emergency management plans by providing:

- A comprehensive review of your Emergency Operations Plan, Continuity of Operations Plan, and Disaster Recovery Plan
- Onsite staff mentoring and education on incident and post-incident support
- A review of training programs, exercises, and lessons learned, and our recommendations for improvement to ensure a robust and objective process is in place
- Review of emergency meeting minutes, emergency management program, and related policies and procedures

Vizient Accreditation and Regulatory Advisory Services

Emergency Preparedness is a component of the Vizient Accreditation and Regulatory Services, supporting patient safety through accreditation and regulatory compliance including gap assessments, education, coaching and solution implementation.
