

# REFLECTION

2024 VIZIENT CONNECTIONS SUMMIT

REFLECT | ADAPT | EVOLVE

**Monday, Sept. 16**

(click titles to see agendas)

## [Spend Management Data and Digital Forum](#)

12:30-3 p.m.

Margaux

**Audience:** Supply chain leaders, category managers, data management professionals

**Overview:** This interactive session will highlight key strategies that leverage data and technology for effective spend management. Through interactive sharing and voice-of-customer sessions, participants will have the opportunity to shape Vizient's emerging capabilities. Attendees can also hear real-life stories that demonstrate how digital solutions and data science enable access, commitment and resource stewardship strategies for spend management.

## [Knowledge Connect: Data and Insights Forum](#)

12:30-3 p.m.

Bandol

**Audience:** Open to all Vizient providers, including executive-level participants in one or more Vizient data solutions: Clinical Data Base, Operational Data Base, Clinical Practice Solutions Center, Procedural Analytics, Vizient Supply Analytics

**Overview:** Providers and experts come together to share success stories about how to transform data and insights into action. Learn how to leverage Vizient data and analytics at your organization to achieve cost efficiencies, performance gains and clinical improvements. The agenda will feature provider success stories using these products, as well as updates on the Vizient product road map and capabilities.

## [The Vizient PSO: Evolving and Adapting to Advance Patient Safety](#)

12:30-3 p.m.

Meursault

**Audience:** Clinical, non-clinical and administrative roles involved in improving risk, quality, and safety in all healthcare settings. Open to all Vizient providers.

**Overview:** In this session Vizient providers will share leading practices and innovative approaches to address common healthcare challenges. Explore topics such as efficient patient flow, optimizing patient portal use, AI's role in end-of-life care, preventing diagnostic errors and more. Gain valuable insights and strategies to advance patient safety, healthcare quality, and outcomes in your organization.
