

Vizient Oncology Network (VON)

The Vizient Oncology Network (VON) is a pharmacy network that was established in 2020 to bring together health system oncology practices and clinics to drive savings of branded products and achieve better patient outcomes. VON's membership is comprised of 30 health systems including ten NCCN cancer centers. VON represents an annual oncology drug spend of approximately \$5.7 billion, of which \$4 billion is in GPO spend. The VON pharmacy network is led by an Executive Steering Committee, comprised of member pharmacy leaders to provide direction on initiatives and recommend strategies for the VON network members. VON continues to grow and strives to be the leader in oncology pharmacy practice and sourcing strategies by utilizing evidence-based medicine to enhance contracting opportunities and improve patient care.

Vizient Oncology Network

Bringing together health system oncology practices and clinics to drive savings and achieve high-quality patient outcomes

Profile overview

- Inception date: July 2020
- Member health systems: 32
- NCCN member institutions: 10
- Annual oncology drug spend: \$6 B

Member benefits

Access to benchmarking data and performance insights across health systems to that drive clinical, operational and financial performance

Knowledge-sharing to help address regulatory and practice issues, service evaluation and growth opportunities

Improved leveragability on drug pricing by aggregating volumes both within the network and with other networks

Assistance with implementation strategies and stakeholder reporting on cost savings and auditing performance

Peer-to-peer collaboration to address disease complexity, transparency, benchmarking and member costing

Dual Membership allows members to participate in VON and the traditional Pharmacy Networks

Supplier benefits

- Single point of contact to facilitate communication of value and mutual opportunity
- Proven ability to drive market share through network structure and to drive compliance through peer communication and executive suite engagement in network activities
- Ensures focus on initiatives through the network that otherwise may be lost in the day-to-day priorities of a hospital pharmacy

The results

Role in the Nation's largest member-driven Oncology Network

Participation in cost-savings initiatives with proven results and better clinical outcomes

Collaboration with like-minded Oncology systems seeking common endpoints

Sharing pharmacy oncology best-practices through discussion and future in-person/on-site rotating meetings
