Category expertise for a seamless experience

Our solutions are designed to be seamless – from project inception to first patient use. With four decades of equipment planning experience, we understand the importance of accurate budgeting, product specifications and design coordination, as well as alignment with the clinical and operational needs of your organization.

Collaboration is the foundation

We collaborate with your clinical and operational stakeholders as well as the design team throughout the process, from schematic design through the construction administration phase of your project, delivering a comprehensive and coordinated medical equipment planning solution aligned with the goals of your organization delivering an on-time under budget project.

Leveraging strategic supplier relationships

By leveraging our category expertise along with our portfolio of more than 250 capital equipment supplier agreements, you gain best-in-class pricing, terms and access to manufacturer design data and support to drive performance improvement.

Vizient is committed to your success

With Vizient as your partner, you have access to our team of category subject matter experts in medical imaging, lab, surgical departments, and other critical care areas of a hospital. Our extensive capital contract relationships with top-tier medical equipment vendors ensure access to a vast array of new equipment solutions and cutting-edge technology.

From academic medical centers and children's hospitals to ambulatory surgery and medical office buildings (MOB), our wealth of knowledge, experience and diverse skill sets ensure your project is well managed and meets your organization's clinical and operational goals.

We are committed to delivering high-quality services to help your healthcare system thrive. Contact us today to learn more about how we can help you address needs, meet goals, and create long-term sustainable success.
