

Top Performers: Sustainability Excellence

Award criteria

The Vizient Sustainability Excellence award recognizes healthcare organizations demonstrating outstanding commitment to sustainability and environmentally preferred purchasing. Award rankings are based on two key components:

- **Sustainability Program Maturity**
Evaluation includes the presence of a formal sustainability program, enterprise-level goals and objectives, and an appointed sustainability leader guiding the organization's efforts.
- **Environmentally Preferred Purchasing (EPP)**
Assessed by the percentage of Vizient spend on products that meet Vizient's Environmentally Preferred Purchasing Standard. To qualify as "optimal," products must meet all Vizient-identified chemical safety attributes and at least two waste reduction attributes.

This two-part assessment recognizes organizations that are both strategically committed to sustainability and actively driving impact through sustainable purchasing.
